WHY uPVC?

A smarter choice for comfortable, quieter and more energy-efficient living spaces.

01 THERMAL COMFORT

Multi-chamber profile systems can improve thermal performance.

02 ACOUSTIC COMFORT

Appropriate glazing and sealing can help reduce outside noise.

03 LOW MAINTENANCE

No regular painting required.

04 WEATHER PROTECTION

Proper sealing and drainage support weather resistance.

Performance depends on the complete system — profile + reinforcement + glass + hardware + installation.

Profile
Multi-chamber uPVC profiles

+

Reinforcement
Galvanized steel reinforcement

+

Glass
Single / Double / Triple glazing

+

Hardware
Premium hardware for smooth operation

+

Installation
Professional installation for best performance

FROM MEASUREMENT TO INSTALLATION

A streamlined process to ensure precision, quality and complete customer satisfaction.

OUR 8-STEP PROCESS

From your idea to a perfectly installed solution.

01 ENQUIRY
Understand your requirements and provide guidance.

02 SITE MEASUREMENT
Accurate on-site measurement and technical evaluation.

03 PRODUCT SELECTION
Choose the right system, glass, colour and hardware.

04 SHOP DRAWING
Detailed drawings for approval before fabrication.

05 QUOTATION & APPROVAL
Transparent pricing and final approval to proceed.

06 FACTORY FABRICATION
Precision cutting, assembly and quality production in our facility.

07 QUALITY CHECK
Strict quality inspection at every stage.

08 INSTALLATION & HANDOVER
Professional installation and final handover with support.

QUALITY AT EVERY STEP

Premium materials. Advanced machinery. Skilled installation.

PREMIUM MATERIALS
High-grade uPVC & aluminium profiles for durability.

ADVANCED MACHINERY
Precision cutting and fabrication for perfect finishes.

STRICT QUALITY CONTROL
Multiple quality checks before dispatch.

SKILLED INSTALLATION TEAM
Trained professionals for clean and accurate installation.

AFTER-SALES SUPPORT
Reliable support for long-term performance.

Measure Right → Fabricate Right → Install Right
